#### NEWS IS NEWS

Teachers of St. Louis dailies contained some fine "stap." Young Rockefeller is in Colorado "traveling with some working men." We were told. He also made a speech to the school children, telling them he had children, but that "sometimes they are not as mannerly as you seem to be." And he closed by saying that maybe he'd bring a few of his children out next time he came to play with the brats of the workers. Such hog-wash! But it goes.

But our news service seems to have gotten its wires crossed. The dispatch telling of Rockefeller's activity was dated Trinidad, Col. Sept. 29. Another dispatch of that date appears as follows: "Cleveland, Sept. 29.--John D. Rockefeller, Jr., was today reported to be at Forest Hills in conference with Rockefeller, Sr., probably on the subject of war loans. It is said young Rockefeller, who has not been in Cleveland for several years, laid before his father the proposals of the Anglo-French commission for a war loan."

The only way I can figure it out is that the Rockefeller are really in the east, and that the Colorado dope is the work of Ivy Lee, the Rockefeller press agent in Colorado.

But news is news.

#### FUN AT THE STATE U.

We wonder that the world grows more brutal year by year. But the people generally do not know of the brutality practiced at our higher schools that is supposed to pass for fun.

Judge W. C. Bowman of the county court was called to Columbia Saturday, where his son, Paul, began a term at the State University. While "playing" with other students Paul had his skull fractured and was bleeding from ears and mouth when taken to the hospital. The paper published at the University gives this account of the result of one game:

"According to report of Dr. Guy L. Noyes of the Parker Memorial Hospital, the following students were injured in the bag rush:

"Paul Bowman, Sikeston, Mo., freshman in the College of Arts and Science. Injury to base of skull. Bleeding freely at mouth and ears when taken to the hospital. Seriously injured, accord to Doctor Noyes.

"Preston Walker, Clarence, Mo., sophomore in the College of Arts and Science. Fracture to small bone in right leg. Injury not serious, will be out on crutches in a few days.

"Thurlo Rogers, Springfield, Mo., freshman-journalist, injury to neck. Not serious.

"Noel Swank, Charleston, Mo., freshman in the College of Agriculture. Dislocated left elbow. Not serious."

#### "SUPERIOR MAN"

There is danger that "superior man" will have to crawl down off his high perch. Up to recent years he has regarded woman as a sort of necessary evil, but in the test of intellectual ability Mr. Man generally comes out at the little end of the horn.

Of late it has been noticed in the schools of the cities that classes were delayed because of stupid children. In St. Louis Dr. Wallin was appointed to discover the cause and the cure. The Globe-Democrat says:

"Dr. Wallin says that he found in the special schools many children classified as feeble-minded who, in reality were only backward children, and found they made excellent progress under the new conditions. He said he found nearly three times as many boys as girls among the backward and feeble-minded children sent to him for examination."

Every man is a promoter of his own interest.

#### AMONG THE SUBS.

#### HERE AND YONDER.

According to a report received from Vanduser a protracted meeting of the Church of God closed there Monday, conducted by Mr. and Mrs. H. A. Delay, assisted by M. H. Benson of West Frankford, Ill. The report says: "Fourteen souls were saved, nine sanctified, 45 took part in the audience service and six followed in baptism. God's wonderful power was manifested in the healing of the sick; many souls were convicted and left the tabernacle night after night under conviction and weeping on account of sin. The crowds were large and much interest manifested."

#### THE LONG LIFE OF A GOOD WAGON

We bought our two Studebaker wagons from your agent, Moses Logan, 37 years ago.

Our descendants have worn out three or four wagons of other makes since we bought ours.

We have never broken anything on the wagons and the hubs are perfect yet.

One is a lumber wagon, the other a spring wagon. Both are good for years of work yet.

Arthur Martin, Sandy Lake, Pa.

#### Studebaker 37 years old--hubs perfect yet

Not strange for the Studebaker--because the hubs are of fine, close grain--tough, strong and treated with a secret sealing solution that is weather resisting.

Notice the hubs on the next Studebaker you pass on the road--you'll find they are not split or checked like the ordinary wagon.

And in these hubs are set the famous Studebaker alope shoulder spokes.

The Studebaker Farm Wagon Wheel is best made. We sell the Studebaker because we believe it is the biggest wagon value on the market.
